

AER RENTS

STRONGER TOGETHER

AN INTRODUCTION TO THE AER RENTS GROUP

Welcome to the AER Rents Group

AER Rents is a connected group of independent hire and sales specialists operating across the UK and Ireland.

Together we offer a comprehensive range of equipment, both general and specialist, combining trusted expertise with local hands-on service. We operate across every sector from construction and infrastructure to specialist access and lifting.

Each of our Group businesses is proudly independent and possesses deep local knowledge built on decades of experiences supporting our loyal customers. By working together our collective strength reaches further:

- ✓ Ensuring safety is at the heart of everything we do
- ✓ Offering a wider choice of products and solutions
- ✓ Smarter service, before, during and after hiring
- ✓ More value and innovation, wherever you're working

AER Rents is proud to hold ISO 45001 certification across every business and depot in the Group. A clear commitment to the highest standards of health and safety.

Specialist Kit. Ready When You Are.

From specialist High-Reach MEWPS to everyday tools, we have the equipment, expertise and availability to keep your project moving.

Across the AER Rents Group you will find one of the UK and Ireland's most expansive hire fleets covering every major sector category. Our local depots ensure fast delivery of meticulously maintained modern and reliable equipment to your site.

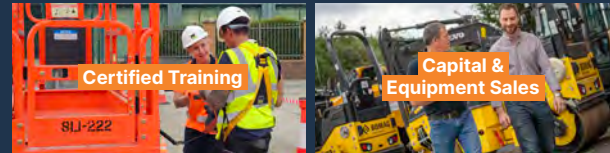

Whatever and wherever your job, our local depot teams will have the equipment and expertise to fulfil your needs!

More Than Just Hire

Across the Group we deliver a comprehensive range of services, training and technical support to ensure people stay safe, sites remain compliant and projects stay on track.

Whilst equipment rental is at our core, AER Rents' businesses also offer a wide range of complementary services including training, technical advice, capital and equipment sales together with testing and inspection capabilities. Whatever it takes to keep your project moving - we have a solution at hand!

Certified Training
IPAF, PASMA, safety and product specific training - available through DHS Complete Hire, Mainline and MPH.

See pages 146-149 for full details.

Capital & Equipment Sales
From large scale plant and specialist kit through to small tools, we provide equipment for purchase across a number of AER Rents' businesses.

See pages 142-145 for full details.

Technical Support & Surveys
Site planning, equipment advice, and hands-on expertise to help you choose the right kit for the job — and get the most from it.

Inspections & Testing
Specialist lifting inspections and testing, LOLER testing and safety checks provided via Hudson Lifting.

**Our support doesn't stop at the hire desk.
If you need a solution, we'll help you find it.**

Safety First. Always.

It's more than a value. It's how we work - every day, in every depot, in every driver's seat and on every site.

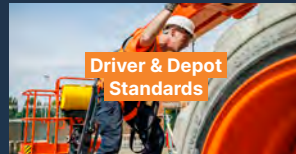

Safety is the number one priority across AER Rents. From our people and products to the way we operate, we put safe practices first and we hold ourselves accountable at every level.

We're proud to have recently achieved ISO 45001 certification as a Group. It reflects not just our systems, but our shared commitment to creating a safe working environment for colleagues, customers and communities.

In-House Training

Every team member is trained in safe working practices - from yard to office, delivery to engineering.

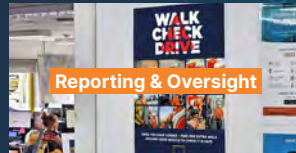

Driver & Depot Standards

Every machine is checked before it leaves a depot. Drivers are trained, routes planned and safety is never rushed.

Group-Wide Initiatives

Regular toolbox talks, Safety Stand Down Days, and WALK, CHECK, DRIVE initiatives support a strong safety culture.

Reporting & Oversight

Incidents and near-misses are reported via our dedicated app and reviewed by our SHEQ team and business safety leads.

Powered by People

Across the AER Rents Group our people are our strength. They bring experience and deep expert knowledge of the equipment, applications and challenges faced by customers - plus they take pride in being dependable, honest and helpful....we're with you each and every step of the way.

On the Front Line

- ✓ Hire desks who 'make it happen'
- ✓ Drivers and Engineers who keep you working
- ✓ Sales and depot teams who find the solution that works for customers
- ✓ People who take ownership and pride in delivering service

Behind the Scenes

- ✓ Technicians, engineers and training staff meticulously preparing equipment and ensuring operator competency.
- ✓ Support staff keeping operations moving, systems running and customers informed
- ✓ Expertise that turns every hire into a customer solution

Reliable equipment matters, but the people behind it? That's the AER Rents difference!

A leading provider of hire equipment across London, the M25 and surrounding counties

MPH delivers powered access, plant and specialist hire equipment to contractors working across M&E, fit-out, construction and maintenance. With over 40 years of experience and three North London depots, MPH is trusted for rapid response, high standards and a varied equipment fleet that's ready to go.

- ✓ Powered Access, Plant, Lifting, Tool Hire and much more
- ✓ A wide and varied fleet of electric, hybrid and diesel machines
- ✓ Three North London depots
- ✓ Fully certified and well-maintained equipment

And we offer more than just great equipment...

- ✓ IPAF, PASMA, NPORS and safety training at our IPAF Approved Centre. See page 148
- ✓ Experienced service engineers and workshop team
- ✓ Dedicated customer support and account management
- ✓ Equipment available for sale

Construction Plant, Powered Access, Low Level Access, Lifting & Handling and Training

Lightweight, compact, and ready to go – the Peco Lift is a push-around low-level access platform with no batteries or hydraulics. Simply turn the handle to rise to a safe **working height of up to 3.5m**. Ideal for maintenance, fit-out and M&E jobs where quick, clean and efficient access is a must.

MANUAL

Peco Lift

The Eco Lift is a non-powered low-level access solution designed for indoor use. **With a platform height of 2.2m** and zero emissions, it's perfect for environments where simple operation and ease of use are essential. No batteries, no fuss.

MANUAL

Eco Lift

Offering a **working height of up to 5.1m**, this powered push-around lift delivers excellent manoeuvrability in tight indoor spaces. With a small footprint and a spacious platform, it's a great solution for overhead tasks in retail, FM and light industrial settings.

ELECTRIC

5.1m Power Tower

The BoSS PA Lift delivers safe, powered access up to a **5.4m working height**. Easy to transport, quick to set up and intuitive to operate, it's an ideal choice for facilities maintenance and light-duty work at height. Compact yet capable.

ELECTRIC

5.4m Boss PA Lift

Compact, agile and weighing just 900kg, the JLG 1330L is ideal for work on sensitive flooring or in tight indoor spaces. With a **5.8m working height** and electric drive, it's well suited to fit-out, maintenance and light construction tasks where manoeuvrability and low point loading are critical.

ELECTRIC

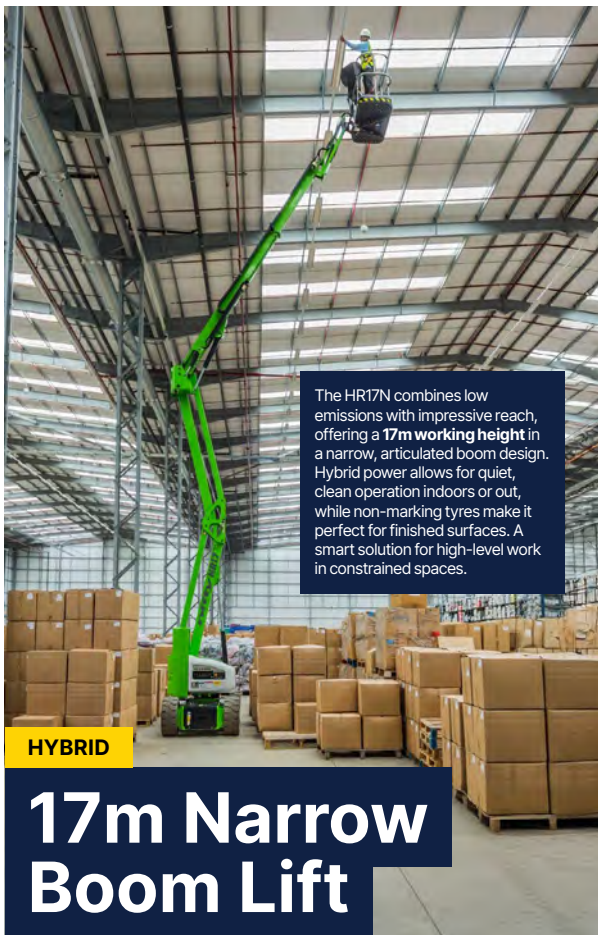

15ft Scissor Lift

The Genie GS-1932 delivers a **working height of 7.8m** with a narrow 0.81m chassis for easy indoor navigation. Fully electric and driveable at height, it's a reliable choice for a wide range of internal access needs, from M&E and shopfitting to routine building maintenance.

ELECTRIC

19ft Scissor Lift

The HR17N combines low emissions with impressive reach, offering a **17m working height** in a narrow, articulated boom design. Hybrid power allows for quiet, clean operation indoors or out, while non-marking tyres make it perfect for finished surfaces. A smart solution for high-level work in constrained spaces.

HYBRID

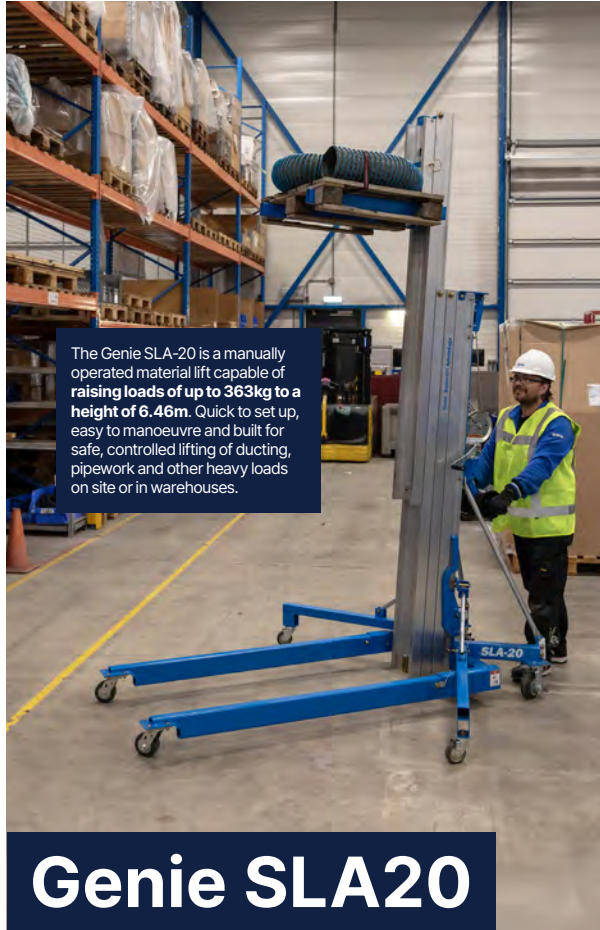

17m Narrow Boom Lift

This compact Manitou telehandler delivers **5.85m of lift height** in a machine designed for tight site conditions. Ideal for loading, placing or shifting materials where space is at a premium. Simple to operate and versatile in use, it's a trusted choice for builders, contractors and event crews alike.

DIESEL

6m Telehandler

The Genie SLA-20 is a manually operated material lift capable of **raising loads of up to 363kg to a height of 6.46m**. Quick to set up, easy to manoeuvre and built for safe, controlled lifting of ducting, pipework and other heavy loads on site or in warehouses.

Genie SLA20

Visit us at: mrplanthire.co.uk

The **8m Bumpa Hoist** moves tiles, bricks and building materials quickly and safely to upper levels. Easy to transport and set up, it speeds up loading and reduces manual handling. A must-have for roofers and builders needing a simple, effective way to move bulk materials.

PETROL/ELECTRIC

8m Bumpa Hoist

Or for more information call: **020 8351 3434**

The Weinold MFC750K is a manually operated floor crane designed for controlled lifting in tight spaces. **With a maximum capacity of 750kg**, it's ideal for glazing, fit-out and industrial settings where space is limited and precision is key.

Wienold MFC750K

Visit us at: mrplanthire.co.uk

This **1-tonne** high-tip skip loader is ideal for fast loading and unloading of materials on tight sites. With a compact footprint and straightforward controls, it's a popular choice for landscapers, builders and groundworkers moving bulk waste or loose loads.

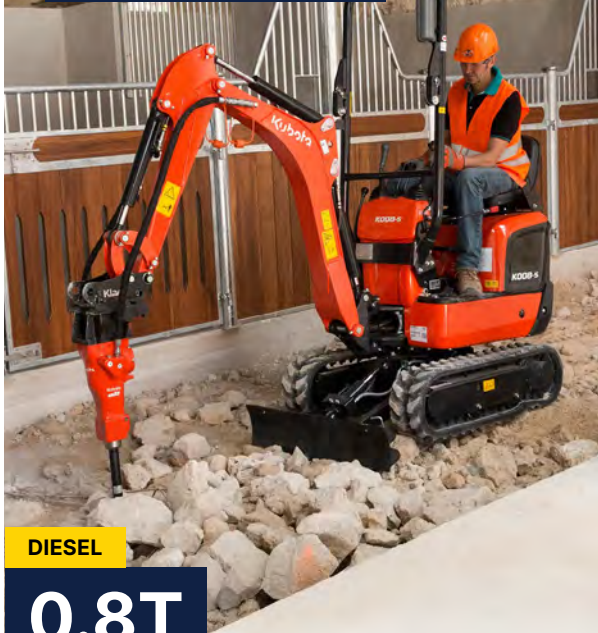

DIESEL

1T Skip Loader

Or for more information call: **020 8351 3434**

Compact but capable, this **0.8-tonne** mini digger is ideal for digging, trenching and general groundwork where access is limited. Easy to operate and simple to transport, it's a go-to machine for domestic and small commercial projects.

DIESEL

0.8T Mini Digger

Built for strength and security, the Armorgard site box keeps tools and equipment protected on site. With reinforced panels, anti-jimmy features and a robust keyed lock, it's a reliable solution for secure storage in any work environment. **Comes in two sizes (4x2x2 and 5x3x2)**

Armorgard Site Box

The Armorgard Fitting Store is a mobile, **lockable cabinet for storing fittings and other consumables on site**. It keeps high-value items organised and protected, reducing waste and theft. A practical choice for plumbers, electricians and fit-out contractors.

Armorgard Fitting Store

Visit us at: mrplanthire.co.uk

The Mi Tower is a one-person quick-assembly scaffold tower with a **working height of up to 6m**. Compact, stable and easy to build without help, it's ideal for access jobs in schools, offices and industrial units. A smart alternative to ladders.

Mi Tower

Or for more information call: **020 8351 3434**

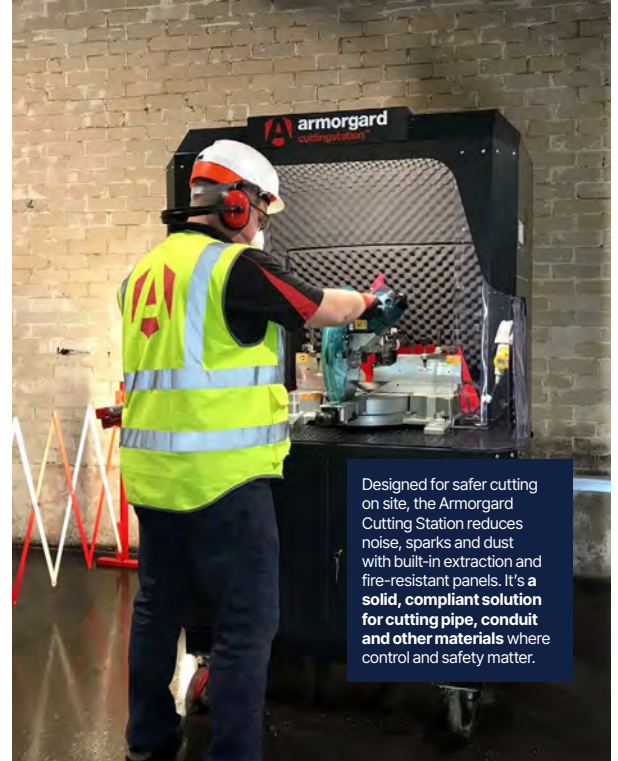

The ALF 150 detects underground air leaks with precision and ease. **Lightweight and portable, it helps pinpoint leaks quickly** to minimise disruption and avoid costly excavation. Ideal for utilities, plumbers and site teams needing accurate, non-invasive fault detection.

ALF 150 Leak Detector

Visit us at: mrplanthire.co.uk

Designed for safer cutting on site, the Armorgard Cutting Station reduces noise, sparks and dust with built-in extraction and fire-resistant panels. It's a **solid, compliant solution for cutting pipe, conduit and other materials** where control and safety matter.

Armorgard Cutting Station

Or for more information call: 020 8351 3434

This heavy-duty masonry bench saw is **built for clean, accurate cuts through brick, concrete and stone**. With a robust table and adjustable blade guard, it's ideal for construction sites and yard work requiring repetitive or deep cutting.

ELECTRIC

14-16" Masonry Bench Saw

Capable of handling branches up to 6" thick, this towable wood chipper is powerful, easy to operate and quick to deploy. Ideal for tree surgeons, landscapers and ground teams tackling heavy-duty site clearance or tree work.

DIESEL

6" Towable Woodchipper

COMPLETE HIRE

Complete hire solutions from a trusted Irish name with over 30 years of experience.

Based in Drogheda and Dublin, DHS Complete Hire supports Ireland's construction, fit-out and building services sectors with a complete range of tools, access and site hire equipment. DHS combines practical expertise with fast, friendly service across every job - large or small.

A wide range of rental equipment across a variety of product categories including:

- ✓ Plant, Powered Access, Lifting, DIY, Gardening and much more...
- ✓ All sectors and industries catered for
- ✓ Knowledgeable team with strong local experience

And DHS is more than just a hire company...

- ✓ IPAF and in-house training courses are available. See page 149
- ✓ A fully-stocked 'sales' shop serves the Drogheda region. See page 143
- ✓ Servicing and Inspection services available

Visit us at: dhscompletehire.ie

COMPLETE HIRE

Compact, agile and whisper-quiet – the Snorkel A38E is perfect for indoor or sensitive environments where precision matters. With a **working height of 13.5m** and smooth proportional controls, it delivers reliable reach and control in tight spaces. Ideal for maintenance, fit-out or electrical work where manoeuvrability and low noise are essential.

ELECTRIC

Snorkel 13.5m A38E

COMPLETE HIRE

A go-to for jobs that demand reach, flexibility and dependable performance. With an **18.3m working height** and strong up-and-over capability, this diesel-powered Sinoboom Z30141 boom handles uneven terrain with ease. Trusted on construction and industrial sites for safe, smooth access to those harder-to-reach places.

ELECTRIC

Sinoboom 18.3m Z30141

COMPLETE HIRE

Built for serious height and outreach, the Genie Z-80/60 delivers **26m of working height with up to 18m of horizontal reach**. Perfect for large-scale construction, steelwork or cladding projects. Reliable performance, four-wheel drive and rough terrain capability make it a trusted choice when access gets challenging.

DIESEL

Genie 26m Z80-60

COMPLETE HIRE

Straight to the point and straight to height. The Dingli BT28RT offers **28m of working height** with rock-solid stability on rough ground. A powerful diesel boom for steel erection, signage or large-scale installations where reach and reliability can't be compromised. Built tough, with performance to match.

DIESEL

Dingli 28m BT28RT

COMPLETE HIRE

A true site workhorse. The Manitou MT 1140 handles heavy **lifting up to 14m with ease**, making it ideal for moving pallets, loading materials or supporting build phases at height. Robust, reliable, and operator-friendly, it's a staple on construction sites where strength and reach go hand in hand.

DIESEL

Manitou 14m MT1140

COMPLETE HIRE

Versatile and proven, the 540-140 is ideal for moving heavy materials around site with confidence. **With a 14m lift height** and solid all-terrain performance, it's the go-to for loading, placing and lifting on housebuilding or commercial sites - a reliable, powerful and trusted asset across all kinds of build environments.

DIESEL

JCB 14m 540-140

COMPLETE HIRE

A smart alternative to diesel forklifts, the EFL252X2 runs on lithium-ion power for zero-emission performance. **It lifts up to 2.5T** and delivers excellent handling for warehouses, loading bays and yard work. Fast charging, low maintenance and no compromise on strength – electric just makes sense.

ELECTRIC

EP 2.5T LI-ION EFL252X2

COMPLETE HIRE

A workhorse for busy yards and industrial settings. The Toyota **3T diesel forklift** offers solid lifting power, excellent stability and all-day performance. Simple to operate, tough enough for heavy materials and reliable in demanding conditions. Built for productivity.

DIESEL

Toyota 3T Diesel

COMPLETE HIRE

Power and precision in a compact footprint. The ZX135USB-6 offers all the digging force of a **13T machine** with the added bonus of zero tail swing, making it ideal for tight urban sites or roadside work. Smooth hydraulics, comfortable cab and Hitachi reliability as standard.

DIESEL

Hitachi 13T Zero Tail ZX135USB-6

COMPLETE HIRE

The TB290 is the perfect balance of muscle and manoeuvrability. This **9T excavator** delivers strong breakout force and smooth controls for groundworks, utilities and civils projects. Robust, responsive and well-equipped for long days onsite.

DIESEL

Takeuchi 9T TB290

COMPLETE HIRE

Compact and efficient, the BW138 is **made for asphalt patching, road repair and small-scale compaction.** It delivers reliable vibration, a smooth finish and easy handling for site teams. A proven choice when you need performance without the bulk.

DIESEL

Bomag BW138 Vibrating Roller

COMPLETE HIRE

For serious compaction on larger jobs, the BW213 delivers. **This heavy-duty roller is ideal for sub-base and large-scale roadwork,** offering powerful vibration and outstanding coverage. Reliable and operator-friendly, it's built to go the distance.

DIESEL

Bomag BW213 Self Propelled Roller

COMPLETE HIRE

Perfect for trench and pipeline work, the RTSC3 delivers high compaction in confined areas. Remote controlled for safety, with dual-drum vibration and excellent traction. Built for reliability on tough terrain and in challenging conditions.

DIESEL

Wacker Neuson Trench Roller RTSC3

COMPLETE HIRE

Efficient, reliable and easy to deploy. The 2024 X-ECO lighting tower from Trime delivers powerful LED lighting with low fuel use and quiet operation. Perfect for night work, security or events, with auto start/stop features and compact transport dimensions.

DIESEL

Trime Lighting Tower 2024 X-ECO

COMPLETE HIRE

Heavy-duty welding and standby power in one robust unit. The Mosa **600amp** delivers diesel-powered flexibility for site welding and equipment backup. Durable, mobile and capable of handling the toughest tasks.

DIESEL

Mosa Diesel 600amp Welder /Generator

COMPLETE HIRE

Reliable power for demanding applications. This **diesel-powered 66kVA** Genset delivers consistent, efficient performance for site works, events or backup supply. Housed in a robust acoustic canopy to minimise noise and protect components, it's easy to transport, simple to operate and fully compatible with distribution boards and cable sets. Ideal for medium-load power requirements.

DIESEL

Kohler 44kVA Diesel Generator

COMPLETE HIRE

Tough on the ground, easy on the operator.

The LT6004 is a powerful trench rammer designed for compacting cohesive soils in confined areas. Balanced, reliable and built for tough groundwork environments.

DIESEL

Atlas Capco Jumping Jack LT6004

COMPLETE HIRE

High-capacity air, wherever you need it. The XAS 286 delivers **600CFM of compressed air** for demanding site tools and applications. Rugged, mobile and efficient, it's ideal for sandblasting, drilling or powering heavy-duty equipment.

DIESEL

Atlas Capco 600CFM Compressor

COMPLETE HIRE

A trusted solution for safe working at height. The Boss Ladderspan 850 system is **lightweight, strong and simple to assemble**. With multiple platform height options and stabilisers for added security, it's a flexible tower for all kinds of access jobs.

Boss Ladderspan 850 Tower

Visit us at: dhscompletehire.ie

COMPLETE HIRE

Built for efficiency in the toughest conditions. The Forst 8" tracked chipper **powers through timber and brush with ease, with excellent grip and terrain handling**. Ideal for tree surgeons and site clearance, with simple controls and fast throughput.

DIESEL

Forst 8" Tracked Wood Chipper

Compact, agile machine that fits through standard doorways, ideal for tight spaces within warehouses, factories and commercial premises. Low noise and emissions also make this an ideal choice for retail and office work.

ELECTRIC

Dingli 0607 DCS

This **19 foot scissor** is our most popular scissor, a true industry workhorse able to work indoors and out on any firm level surface. Ideally suited for confined space working in industrial and commercial environments.

ELECTRIC

Genie GS-1932

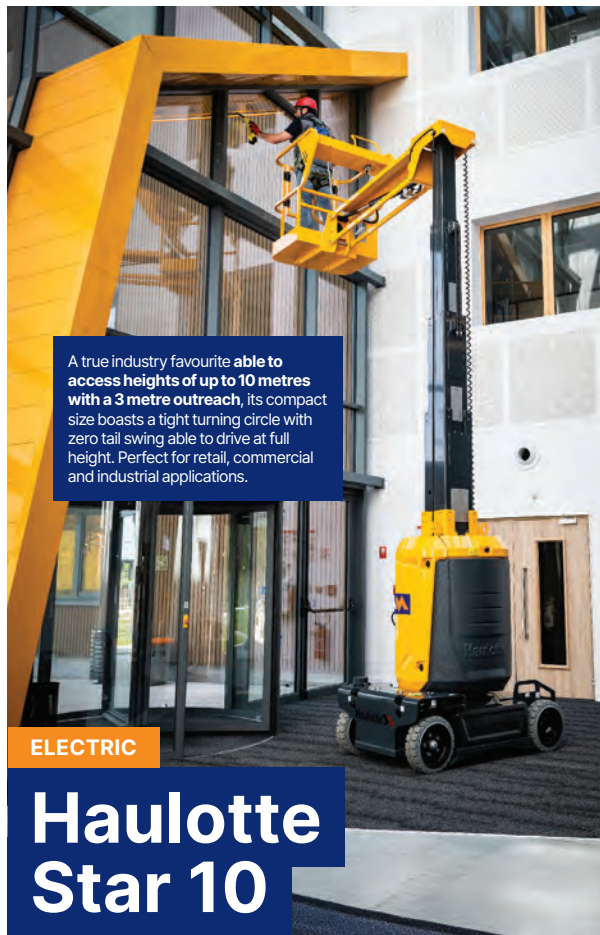

A compact vertical mast lift with a low floor loading that can travel through doorways and in elevators. With **low noise, zero emissions and tight manoeuvrability** this highly versatile machine is perfect for multi-floor working in office blocks and industrial premises.

ELECTRIC

Skyjack SJ16

Visit us at: [mainline-hire.co.uk](https://www.mainline-hire.co.uk)

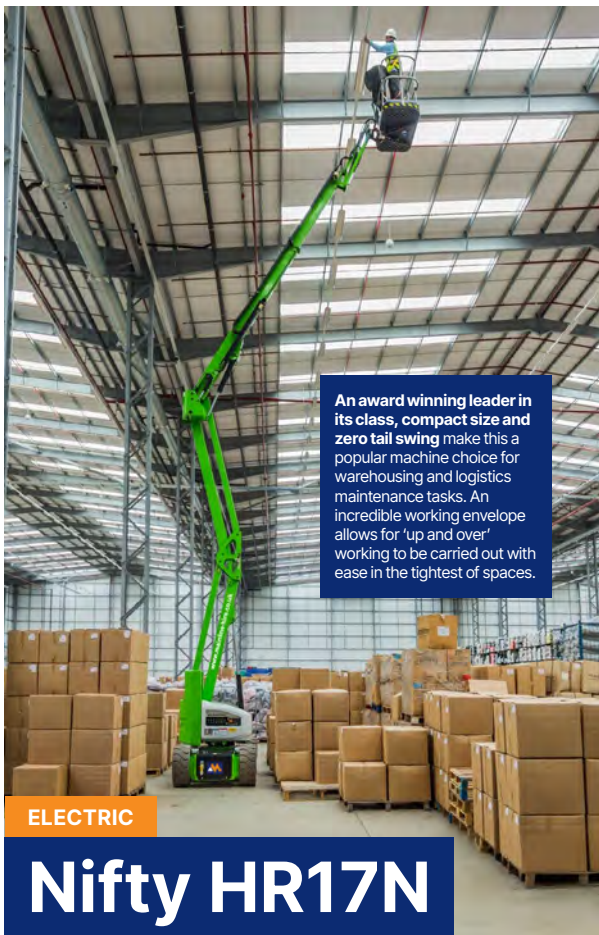

A true industry favourite able to **access heights of up to 10 metres with a 3 metre outreach**, its compact size boasts a tight turning circle with zero tail swing able to drive at full height. Perfect for retail, commercial and industrial applications.

ELECTRIC

Haulotte Star 10

Or for more information call: **0345 222 33 44**

An award winning leader in its class, compact size and zero tail swing make this a popular machine choice for warehousing and logistics maintenance tasks. An incredible working envelope allows for 'up and over' working to be carried out with ease in the tightest of spaces.

ELECTRIC

Nifty HR17N

This low noise, zero emission electric boom benefits from being wind rated to allow it to work both indoors and out. Powerful four-wheel drive and continuous turret rotation make this a highly versatile machine with excellent manoeuvrability on both floor slabs and rough terrain.

ELECTRIC

Dingli BA22

Visit us at: mainline-hire.co.uk

Or for more information call: **0345 222 33 44**

The workhorse of our mid-size boom fleet, the Genie Z62 allows heights of 20 metres to be accessed with a class leading 'up and over' reach. Four -wheel steering, drive and oscillating axles ensure positive traction with 45% gradeability to tackle the toughest construction environments.

DIESEL

Genie Z62/40

The Z80 is an ever popular machine for steel erection and general construction tasks, impressive 'up and over' reach capability including an outreach of over 18 metres. Positive positioning is complemented by Genie's 'Fast-Boom' system ensuring efficient ascent and descent times to maximise productivity.

DIESEL

Genie Z80/60

Visit us at: mainline-hire.co.uk

Or for more information call: **0345 222 33 44**

Our tallest Hybrid powered telescopic boom that allows for high-level internal emission free working as well as conventional external construction works. High-capacity lithium battery packs provide powerful drive and maintain incredible duty cycles ensuring maximised productivity on site.

ELECTRIC

Dingli BT30SHRT

Our flagship 'Ultra-Boom' offers the ability to access heights of over 58 metres. Extending axles provide reassuring stability and take only a minute to extend or retract allowing operators to be quickly transported to a class-leading working envelope.

DIESEL

JLG 1850SJ

We carry a wide range of **gas and electric forklifts from 2 to 7 tonnes** with our 3 tonne model proving our most popular. High capacity lithium batteries ensure excellent duty-cycles with zero emissions. A range of tyre and attachment options accommodate a variety of tasks.

ELECTRIC

3 Ton Electric

We carry a range of fixed mast telehandlers **from 6 metres right up to our flagship 20 metre machine**. Powered by Stage V diesel engines we operate a modern fleet that includes a range of operator friendly features such as air conditioning, cameras and 'boom sway' on machines over 14 metres.

DIESEL

JCB 540/200

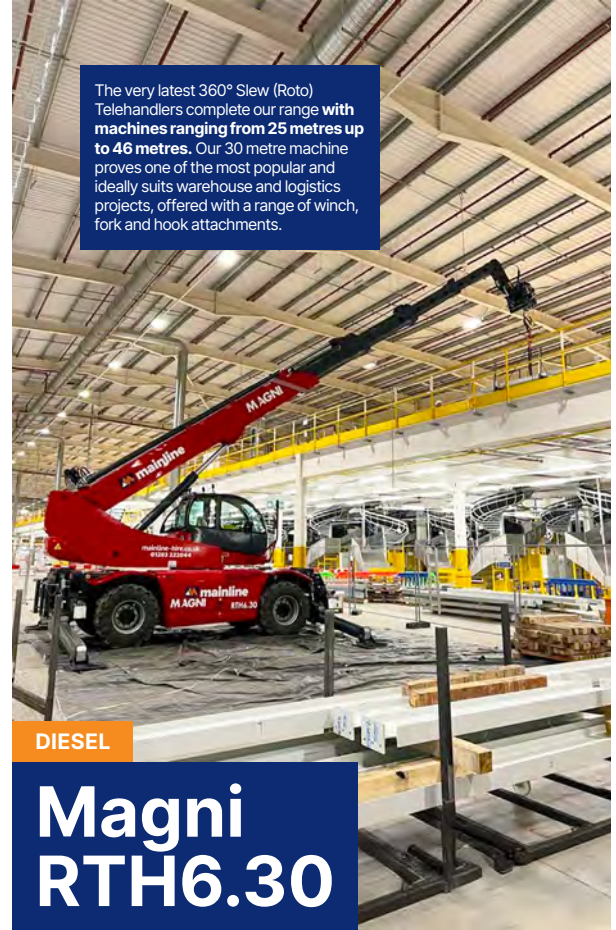

Our Heavy-Lift telehandlers range from **7 tonne capacity through to our largest 12 tonne model**, all capable of lifting loads to a **height of 10 metres**. These compact, powerful machines are easily manoeuvred using 'Finger-Toch' controls that allow the operator's hands to remain on the steering wheel.

DIESEL

Merlo P120/10

The very latest 360° Slew (Roto) Telehandlers complete our range **with machines ranging from 25 metres up to 46 metres**. Our 30 metre machine proves one of the most popular and ideally suits warehouse and logistics projects, offered with a range of winch, fork and hook attachments.

Units to Hire
or to Buy

6 Person Welfare Unit

Compact, comfortable and HSE compliant – this 12ft hybrid-powered unit is perfect for smaller sites. Seating for six, with canteen facilities, drying room, hot water and a recirculating toilet. Lightweight and easy to tow, it sets up in just 30 seconds. Smart, simple and ready to go – wherever the job takes you.

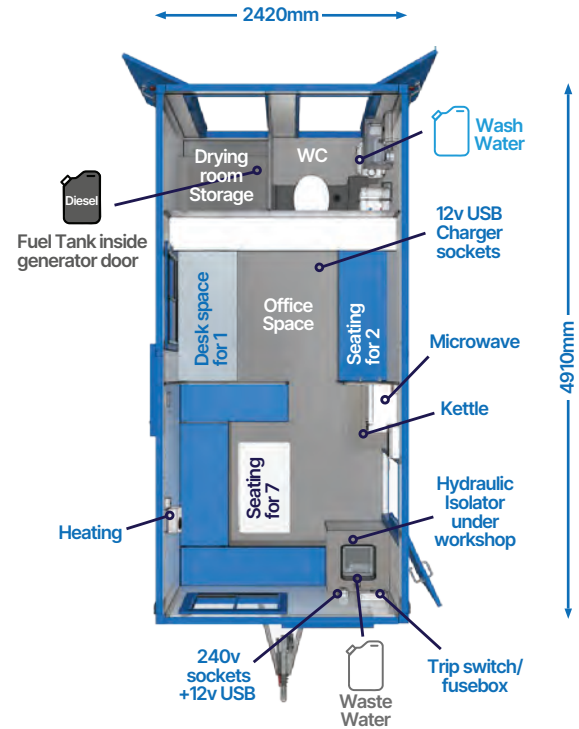

10 Person Welfare Unit

Visit us at: welfare4hire.co.uk

A versatile 16ft unit combining welfare space with an integrated office - ideal for sites that need both. Seats up to 10, with canteen, drying room, recirculating toilet and dedicated workspace. Hybrid-powered with fast 45-second setup. Towable, efficient and ready to support teams and supervisors alike, all from one smart unit.

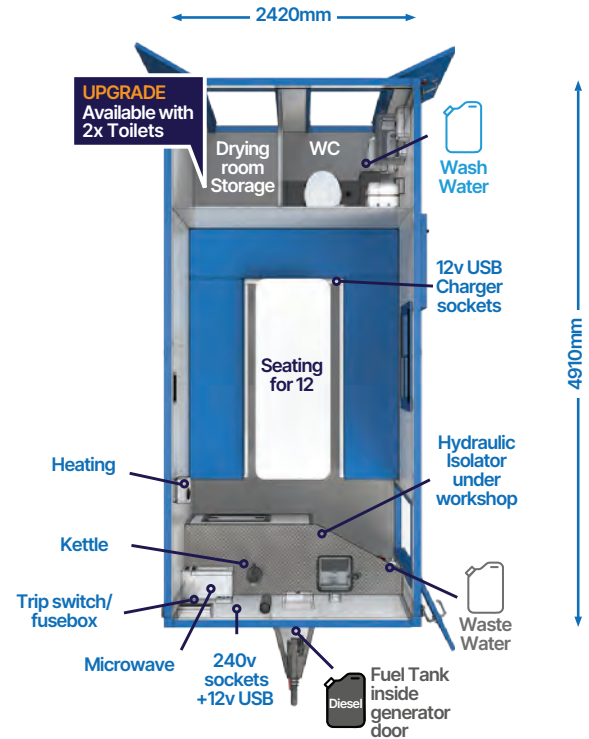

Or for more information call: **0333 433 0244**

12 Person Welfare Unit

A 16ft hybrid-powered unit designed for comfort and compliance. With seating for 12, a full canteen setup, recirculating toilet and drying room, it supports larger site teams with ease. Fast setup in under a minute and easy to tow, it's a dependable choice for busy, high-traffic jobsites.

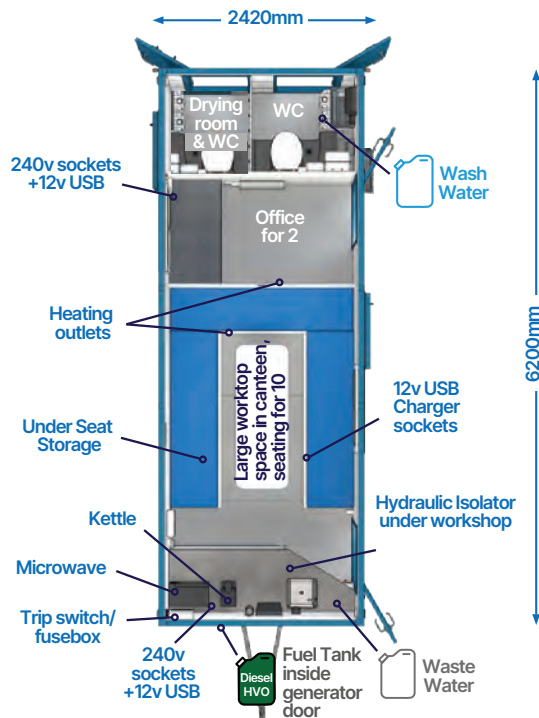

SOLAR MAX

12 Person Welfare Unit With Office

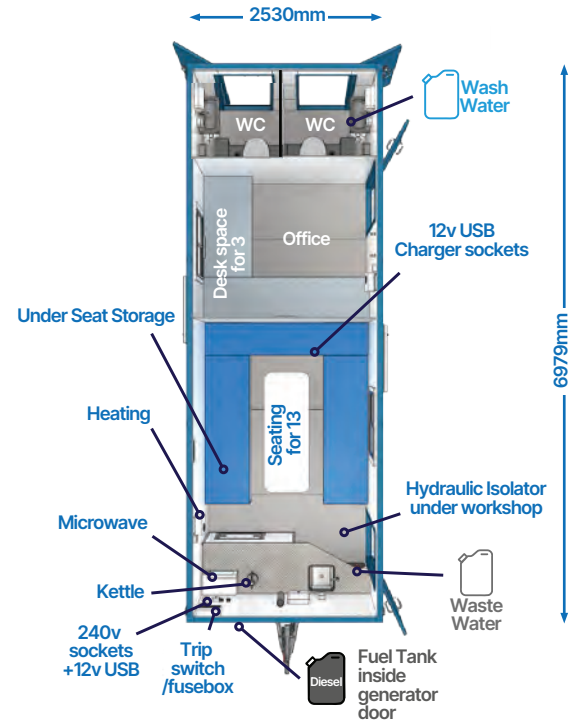

Designed for ultra-low emission performance, this 20ft Solar MAX unit combines sustainable power with practical layout. Seating for 10, two toilets, office space (with a separate partition and external door, for privacy) for two and fully off-grid capability thanks to full-roof solar panels and lithium battery storage. Ideal for long-term or environmentally sensitive projects.

16 Person Welfare Unit With Office

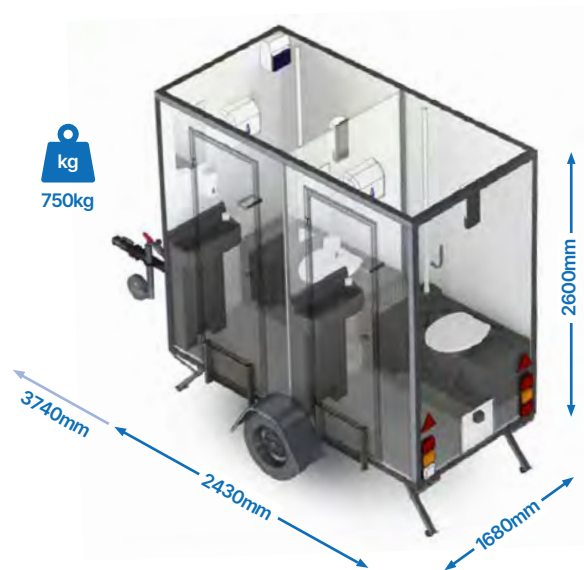

The largest in the fleet, this 22.9ft hybrid unit delivers space, comfort and flexibility. With seating for 13, two toilets, a drying room and a three-person office (with a separate partition and external door, for privacy), it's designed for big teams and complex sites. Set up in 45 seconds and towable despite its size – a real site base.

1+1 Dual Toilet Unit

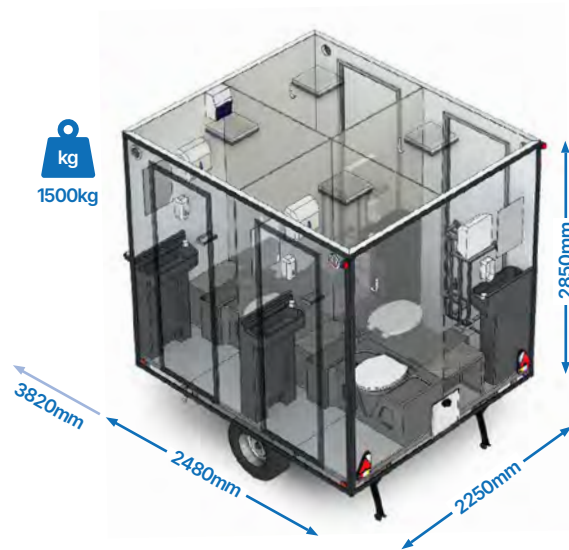

Compact, clean and self-contained, our 1+1 unit offers two unisex cubicles in a single towable trailer. With hot water, mirrors, lighting and internal hot water handwashing, it meets HSE compliance without compromise. Fast to set up, easy to move and ideal for small sites or events.

2+2 Quad Toilet Unit

Four cubicles in one sturdy trailer. The 2+2 mobile toilet unit is ideal for larger teams or events needing more capacity. Each cubicle includes hot water, lighting and ventilation. Built for regular use with robust finishes and fast site positioning.

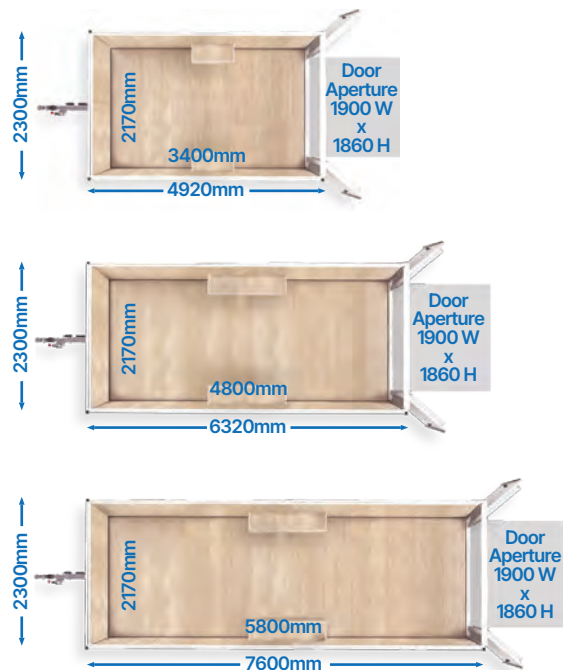

Mobile Storage Units

Visit us at: welfare4hire.co.uk

Secure, mobile and site-ready. Our range of storage units gives you instant extra space for tools, materials and equipment. Available in 12ft, 16ft or 20ft sizes, each features anti-vandal construction, secure locking and easy towing. A practical, flexible solution to onsite storage.

Toilet Servicing

Welfare 4 Hire's nationwide toilet servicing keeps your units safe, clean and compliant. Our standard weekly service includes waste tank emptying, chemical replenishment, water top-ups and consumables restock. We'll also sanitise key areas to keep everything fresh. Emergency call-outs and own-unit servicing are available too – all handled by our trained and professional technicians.

Value Added Products

Visit us at: welfare4hire.co.uk

From fire extinguishers to toilet rolls, our Value Added Products range helps you hit the ground running. We stock a full selection of site essentials – including first aid kits, signage, hygiene supplies and more – ready to be delivered with your welfare unit. One order, one invoice, zero hassle.

Hire, Sales
and much more

Reliable, easy to operate, and built to last – our hand chain blocks cover lifting capacities from 0.5 to 50T, with heights of lift from 3 to 30m. Ideal for controlled vertical lifting where power isn't available or required. Perfect for M&E, construction, plant rooms and confined spaces.

Hand Chain Blocks

Visit us at: hudsonlifting.co.uk

Smooth, consistent lifting – with power on your side. Our electric chain blocks handle loads from 250kg to 10T, with lift heights up to 30m. Available in 110v and 415v, they're ideal for repetitive lifting tasks across M&E, manufacturing and construction where efficiency and safety are key.

Electric Chain Blocks

Or for more information call: 01375 807 643

Chain Slings

Visit us at: hudsonlifting.co.uk

Chain slings available from 7mm to 32mm, with safe working loads up to 67T. Supplied with a full range of hook configurations and unlimited leg lengths. Built for durability and compliance, each sling comes thoroughly tested and certified, ideal for lifting operations where strength and reliability matter most.

Or for more information call: **01375 807 643**

Lightweight yet strong, our flat fibre slings **support loads up to 50T (and more!) with a 7:1 safety factor.** Supplied in 1m circumference increments, these slings are easy to handle and store. Protective sleeves are available to extend life and reduce wear when used in demanding lifting conditions.

Fibre Slings (Flat)

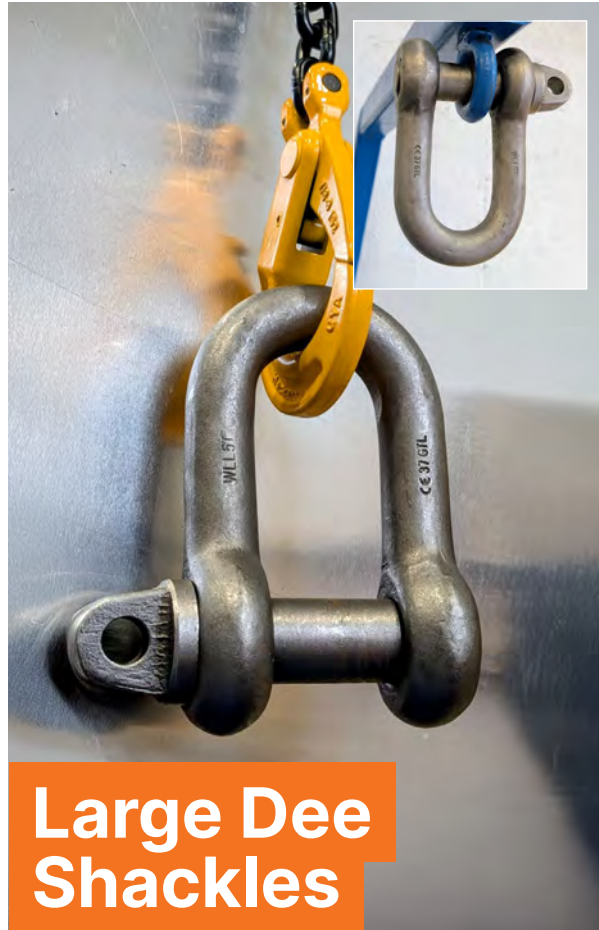

Visit us at: hudsonlifting.co.uk

Flexible and durable, our round fibre slings are **engineered for safe lifting up to 250T (and more!)** Supplied in 1m increments, **each sling offers a 7:1 safety factor** and can be fitted with protective sleeves. Perfect for handling delicate or irregular loads where grip and protection are critical.

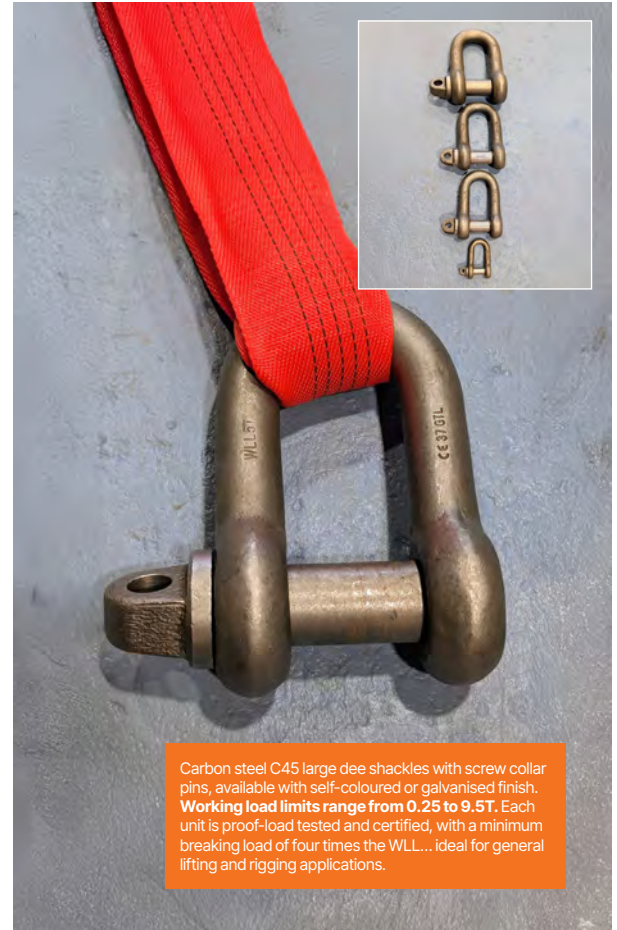

Fibre Slings (Round)

Or for more information call: **01375 807 643**

Large Dee Shackles

Visit us at: hudsonlifting.co.uk

Carbon steel C45 large dee shackles with screw collar pins, available with self-coloured or galvanised finish. **Working load limits range from 0.25 to 9.5T.** Each unit is proof-load tested and certified, with a minimum breaking load of four times the WLL... ideal for general lifting and rigging applications.

Or for more information call: **01375 807 643**

Bow Shackles

Visit us at: hudsonlifting.co.uk

Robust bow shackles made from grade 6 high-tensile steel, quenched and tempered for strength. **Working load limits from 0.33 to 85T (and more!).** Each shackle is hot-dip galvanized, supplied with certification, and designed to meet both EN13889 and US Fed Spec standards. Ideal for versatile lifting use.

Or for more information call: **01375 807 643**

Versatile lifting setups for fast, safe material handling on site. **Builders Gantries / Scaffold Hoists** have a SWL 200kg, 300kg and 500kg. Powered by 110v, single phase these hoists lift to heights of 30m are quick to install, fully certified, and available with a full range of Material Buckets, Lifting Cages and Slings.

Scaffold Hoists/Builder's Gantries

Visit us at: hudsonlifting.co.uk

Lightweight and portable, our aluminium gantries are adjustable and available in beam spans from 3 to 8m. With safe working loads up to 5T, they provide a flexible lifting solution for confined or remote locations without compromising strength or stability.

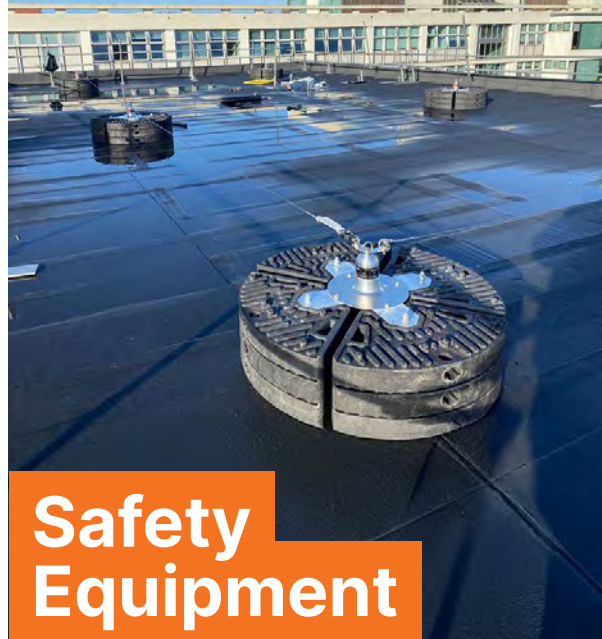

Aluminium Gantries

Or for more information call: 01375 807 643

We offer a comprehensive range of height safety and confined space solutions including fall arrest blocks, mobile man anchors, emergency escape sets and gas detectors. All equipment is certified, user-friendly and suited for both planned work and emergency scenarios. Speak to our team for advice on the right safety setup for your task.

Safety Equipment

Our block grabs handle up to 3T with automatic locking for safe, hands-free operation.

Crane forks are adjustable in height and width, ideal for lifting pallets and bulky loads up to 2T. Both products are designed for efficiency on site and supplied fully certified.

Block Grabs & Crane Forks

Or for more information call: **01375 807 643**

Designed for one-person operation, Genie material lifts offer safe **working loads up to 454kg** and **lift heights up to 25ft**. Ideal for handling awkward items at height, they're quick to set up, easy to use and highly manoeuvrable, making them a go-to solution for mechanical and installation work.

Material Lifts

Visit us at: hudsonlifting.co.uk

These compact aerial work platforms are designed for single-user operation, offering **working heights of up to 12m**. Stable, lightweight and easy to transport, they're ideal for maintenance, inspection and indoor access jobs where space is limited and safety is essential.

Aerial Work Platforms

Or for more information call: **01375 807 643**

Our pallet truck range includes manual models for simple load moving and electric-powered versions for greater efficiency. With **lifting capacities up to 3 tonnes**, they're a reliable choice for warehouses, loading areas and site logistics. Robust construction and easy handling come as standard across the range.

Manual & Electric Pallet Trucks

Visit us at: hudsonlifting.co.uk

From vacuum slab lifters to battery-powered stone magnets, our range is designed for precise handling of concrete, stone and other dense materials. With **lifting capacities up to 600kg**, these units improve safety and reduce manual handling when working with large, flat or delicate slabs.

Slab Lifters

Or for more information call: **01375 807 643**

Get materials to roof height – fast. The Bumpa Hoist is a clever, portable conveyor system that **moves tiles, bricks and building materials quickly and safely up to 10m**. Perfect for roofers and builders looking to cut manual handling, save time and reduce fatigue on site. Simple, efficient and built for the job.

Bumpa Hoist

Visit us at: hudsonlifting.co.uk

Built for tough site work, Shifta conveyors move soil, rubble, aggregate and more with ease. **Capable of handling 200kg loads at angles up to 50°**, they're ideal for basement dig-outs or upper-level refurb. Run up to four units from a single transformer for efficient multi-stage movement.

Shifta Conveyors

Or for more information call: **01375 807 643**

Sales - More than Hire.

Whilst hire remains at the heart of what we do, many of our businesses also offer equipment (new and used), tools and consumables for sale, supporting customers who need a longer-term solution, want to expand their fleets or simply prefer to own the kit outright.

From shop-floor essentials to specialist machinery, our sales offering follows the same principles as our hire fleet: quality products, trusted brands and expert advice. Whether buying in person, through our dedicated sales teams, or via e-commerce, customers can expect practical support, flexible service and competitive pricing.

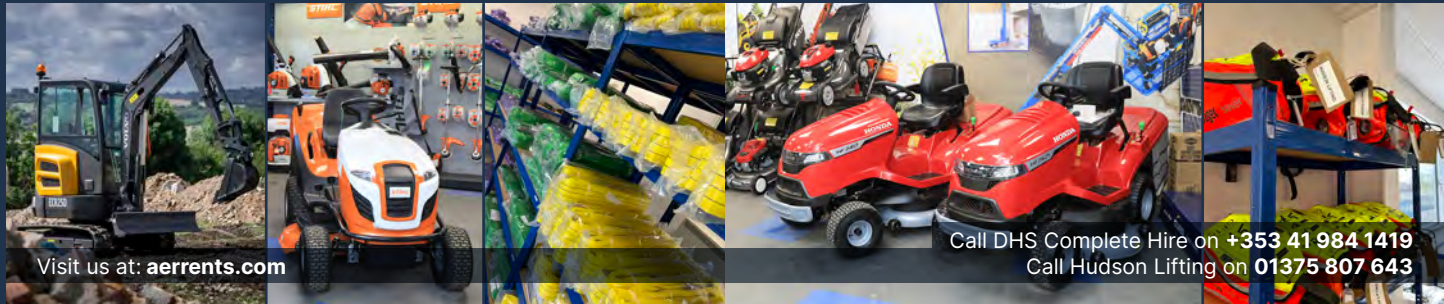

We hold direct supply relationships (and dealerships) with many of the industry's most respected manufacturers. These partnerships give us access to the latest innovations, backed by teams who understand the demands of the job site and the value of long-term reliability.

Because when you're buying for keeps, it pays to go with people who know what works.

HUDSON
LIFTING LIMITED
material handling solutions

Built on trust. Backed by expertise.

Hudson and DHS Complete Hire both offer trusted sales services alongside their core hire operations - giving customers more choice, flexibility and long-term value.

DHS Complete Hire supplies a wide range of tools, consumables and accessories for purchase directly from its Drogheda depot. Whether it's everyday essentials or specialist kit. Customers benefit from expert advice, reliable stock and the same high standards of service that define the wider DHS brand.

Hudson Lifting supports lifting professionals with fully certified equipment for sale - from slings and shackles to hoists, spreader beams and lifting accessories. With LEEA-qualified expertise and access to leading manufacturers, Hudson ensures every item is correctly specified, compliant and ready for use.

Both businesses are built on deep technical knowledge and a strong customer-first ethos - helping you make the right purchase, backed by the right advice.

CHIPPINDALE

Award-Winning Plant & Equipment Sales

Chippindale Hire & Sales has one of the largest Plant Sales divisions in the UK, offering market-leading new and used plant from their official dealerships, including Volvo, BOMAG, Mecalac, STIHL, Belle and Epiroc. They also supply a wide range of light equipment, excavator attachments, tools and consumables for next-day delivery on their e-commerce website.

Chippindale have picked up multiple awards and accolades for their sales division due to their customer-focused service and impeccable after-sales care. They only stock the best the industry has to offer and are the number one spot for the latest and most innovative solutions on the market. With decades of experience, they will provide real value, competitive pricing and can also offer custom features to ensure you get the exact right plant for your project.

Due to bulk purchasing for their hire fleet, Chippindale can provide competitive pricing by passing these savings on to their customers, whilst also being able to provide customers with back-up machines, should anything go wrong, for ultimate peace of mind.

Visit us at: chippindaleplant.com

CHIPPINDALE

New Sales

Offering the best the industry has to offer, with all the latest innovations from Volvo, BOMAG, Mecalac, STIHL, Belle and Epiroc. All backed up by decades of industry experience, flexible finance packages, full customisation and branding options alongside award-winning maintenance and support.

Used Sales

Chippindale's used plant division provides a range of used plant from their hire fleet. Machines come fully tested and with the peace of mind that trained engineers have regularly serviced the equipment. This means quality, reliable used plant at competitive prices - all backed up by their award-winning service.

Parts

Chippindale have an extensive range of parts for sale, to keep your equipment running smoothly. Their team has decades of experience, can help with any questions and with direct access to all major manufacturers, can source most parts with fast turnaround times.

Online Shop

Chippindale has a large online store at chippindaleplant.com, offering hundreds of tools, plant, attachments, light equipment, parts and consumables for sale. With secure checkouts, competitive pricing and next-day delivery on most products, it's the go-to place for all things construction, tools and gardening.

Retail Stores

They also have several on-the-ground tool shops throughout the UK with fully-stocked trade counters that you can visit in person. Feel free to drop by to see products, pick up some essentials and/or speak to their friendly team of expert staff.

Training

Across the AER Rents Group, we deliver accredited training that helps our customers stay safe, compliant and confident on site.

Each training location provides a professional, fully-equipped environment to deliver industry-recognised qualifications for both individuals and teams. Flexible scheduling and experienced trainers mean we can adapt to your needs, whether you're looking to upskill one operator or a whole workforce.

Courses include IPAF Operator (1a, 1b, 3a, 3b) and MEWPs for Managers, as well as Demonstrator, Working at Height and much more. We also offer PASMA courses and essential site safety courses including Manual Handling, First Aid and Abrasive Wheels.*

Where possible, we can bring the training to you – offering on-site sessions tailored to your team, equipment and working environment. Whatever your level, we're here to support your people with the skills and certification they need to work safely and effectively.

Safety starts with knowledge. Let's get you certified. Whatever your level, we're here to support your people with the skills

**Note: Not all these courses are available at all the locations.*
