BR1570 Reversible Compactor

Our most compact & cost-effective reversible plate compactors.

Bartell's smallest and most versatile reversible plate compactor can easily stand in place of many popular forward plates because of the comparative cost, but you get the increased production of the reversible feature.

- ▶ Smallest reversible compactor on the market today
- ▶ Fully hydraulic reversing mechanism with flexible maneuverability allows the machine for forward, backward, and spot-on compaction
- ▶ Cast aluminum throttle lever for a more professional, stronger, and durable for tamping
- ▶ Full roll cage and built in lifting bale for increased engine and guide hook protection
- ▶ Cast aluminum belt cover for increased clutch and engine longevity
- ▶ Ductile iron bases for increased strength
- ▶ Wheels that attach and flip down for easy transportation
- ▶ Optional extension plates and urethane mat options available
- ▶ Full speed in both forwards and reverse
- ▶ Specialized for compacting sand, trench, and patching
